# Selection of major projects

## APS snapshot

### Selection of major projects

Note: Not all projects are shown

Selected project	Access Platform	Rope Access	Scaffolding	Design, Fabrication and Installation
Callide Power Station	✓	✓	-	✓
Eastland Shopping Centre	✓	✓	✓	✓
Flinders Street Station	-	✓	✓	✓
Gorgon LNG Jetty	✓	✓	-	✓
Grange Resources	✓	✓	-	✓
Ichthys	-	✓	-	-
Liddell Power Station	-	✓	-	✓
Loy Yang Power stations	✓	✓	✓	✓
Melbourne Central Shopping Centre	-	✓	✓	✓
Milmmerran Power Station	✓	✓	✓	✓
One Steel Whyalla	-	-	✓	✓
Paiton Power Station	✓	✓	✓	✓
RMIT University	-	✓	✓	✓
Sydney Cricket Ground	✓	✓	✓	✓
Victorian Desalination	-	✓	✓	-
West Gate Bridge Strengthening	✓	✓	✓	✓
Wheatstone Project, Onslow	✓	✓	✓	✓

# Design / Engineering Capabilities

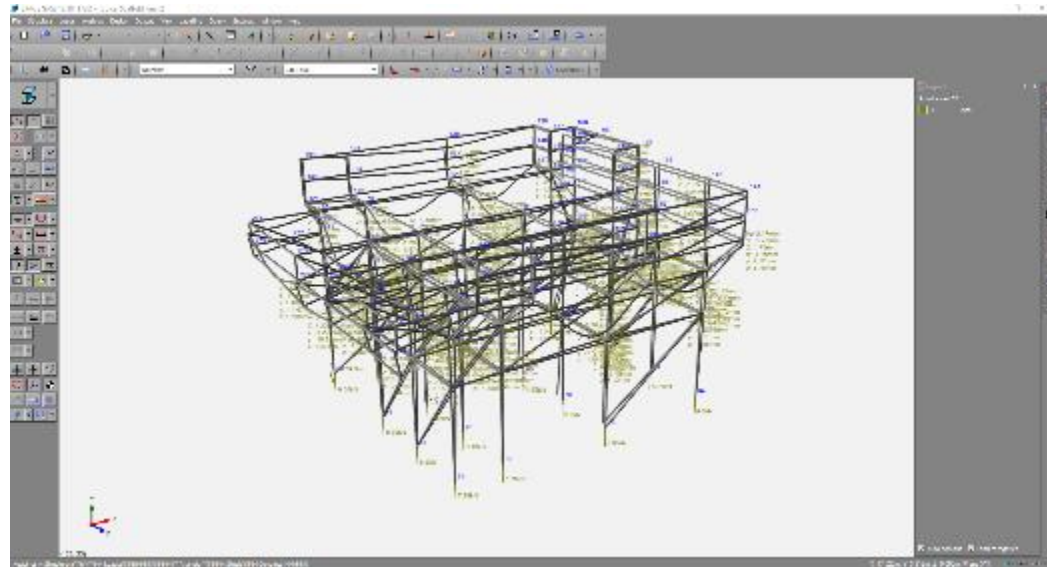

Located at our head office we have a in house experienced design and engineering team that cover all kinds design and engineering works both for APS and customers. The types of design and engineering carried out includes

- Structural Steel
- Building facades
- Architectural steel work
- Scaffolding
- Suspended access platforms

As well as interpreting Architects drawings APS's engineering team also have the ability to complete turnkey designs and R&D.

We use multiple software programmes to ensure that we not only design correctly but manufacture our products spot on using software such as;

- Auto CAD
- Space Gas
- Strap Analysis
- Lay plan
- Auto desk inventor
- 3D printing

# Fabrication

With approximately 2000m<sup>2</sup> of fabrication facility under roof, we have the capacity to manufacture multiple projects at any one time. We not only fabricate mild steel we also have the capacity to fabricate and weld Aluminium and Stainless Steel.

Our dedicated fabrication team comprising of boilermakers, fabricators and welders, have the ability and the experience to cover most fabrication requirements.

# On Site Installation

Our installation teams are made of varying skill sets, carpenters, steel erectors, riggers, boilermakers, scaffolders, painters.

Whether its structural steel installation, a complete building façade, glass balustrades, perforated panelling, access platforms or architectural steel work at APS we have the teams and the experience to provide a complete design to installation package.
